

Level Best[®]
PRECISION GRADING

Box or Blade?

Which kind is right for you?

There's Rough grade, Finish grade, Final grade...and now there's Precision grade, the one that makes you money.
Only Level Best is accurate to **0.1"** of spec.

What's the Difference?

BOX

The Level Best Precision Box Grader is designed for precision grading of flats and crowns and is capable of 3-D contouring

Grades in both directions

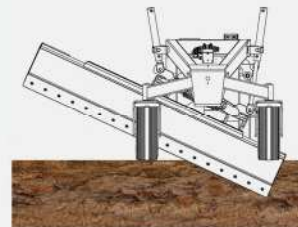

BLADE

The Level Best Precision Blade Grader is designed for precision grading of flats, crowns and 3-D terrain

Grades with windrows

Cuts up to 26" deep
Highly adjustable
