**QUICK-ATTACH BUCKET FORKS PROVIDE INCREASED PRODUCTION AND VERSATILITY** for Backhoe Loaders, Wheel Loaders and other Bucket Mounted Equipment. Six models available from 4,000 lb. to 11,000 lb. capacity. Turns your loader into a forklift in seconds. Quick-Attach Bucket Forks often eliminate the need for a separate forklift truck on many job sites. A single set can be used by many operators making Rankin Quick-Attach Bucket Forks a cost effective solution to your material handling needs. Installation requires welding mounting brackets to the bucket's top lip or spill plate. Some modifications may be required to the mounting brackets. The forks then mount easily in seconds by simply curling the bucket and driving into the forks - then leveling the bucket, forks automatically locking place.
