

ZMG SERIES MOWERS

Precision Cutting Performance!

ZMG MOWERS

Reliable technology! Robust angular gears, indirect drive of the blades via V-belt and protective labyrinth seal of the blade bearings

Different three-point frames! Rear, front + rear or mulch/spray combination

Ideal ground hugging
Thanks to three-point suspension with integrated float position (Cat. 1 & 11)

Uncompromising! Enormous cutting performance, extreme blade overcut, high travel speed, even at extreme speed conditions

Intelligent, solid construction!
Compact, weight-optimized and extremely reliable thanks to high-strength steels and quality components

Ilmer ZMG Low Profile Series Mowers are designed to efficiently mow grass with the option of discharging clippings in the row or to both sides of the machine. These high blade tip speed machines are equipped with double edge swinging blades for precision mowing, 1" cutting capacity.

ZMG SERIES MOWERS

FEATURES:

- Rear or Dual Side Discharge
- Double Edge Blades
- Belt Drive Spindles
- Front Swivel Wheels
- Rear Roller with Scraper
- Low Profile Deck
- Lateral Hydraulic Offset
- Powder Coat Paint
- Series 6 Driveline
- Dual Gearboxes
- Floating Top Link Chain
- 1" Cutting Capacity
